

Rock your space

WHITE AS LIGHT, strong as stone, *Angelo White Marble* from A-Class Marble transforms spaces into sanctuaries of elegance and refinement. Its immaculate surface, delicately veined, exudes luxury while remaining quietly sophisticated, a perfect canvas for both contemporary and classic interiors.

Sourced from A-Class Marble's premium Zambian quarries, *Angelo White* is celebrated not only for its pristine beauty but also for its extraordinary durability, ranking among the hardest marbles worldwide, suitable for opulent living rooms, serene bathrooms, dramatic feature walls, kitchens, and grand façades. Rai Chand Bhandari from the brand, explains, "*Angelo White* is a marble that embodies both strength and serenity. Its density and durability make it suitable for a wide range of applications without compromising visual refinement. The true beauty lies in its ability to stand use over time while

Transform your homes with natural brilliance of white marbles

maintaining quiet purity. It grounds the space while allowing light and form to take centre stage."

What distinguishes *Angelo White* globally is its rare balance of depth,

texture, and movement. "It's neither stark nor flat," Rai says, "its subtle patterns capture the essence of natural stone in its purest form, lending spaces elegance and sophistication. Designers gravitate toward it because it allows structure and softness to coexist effortlessly."

Its versatility makes it ideal for a spectrum of aesthetics, whether a minimalist modern penthouse or a heritage villa with intricate detailing. Bathrooms leverage its reflective quality for calm, living spaces make it a focal point through flooring or

feature walls, and designers play with light, proportion, and material contrast to stunning effect.

Angelo White's subtle translucence transforms spaces as light interacts with it, and architects are using this to create illuminated panels, sculptural partitions, and light installations. Rai notes, "When backlit, it glows with a soft radiance, almost ethereal, giving the stone a dynamic life as light shifts throughout the day."

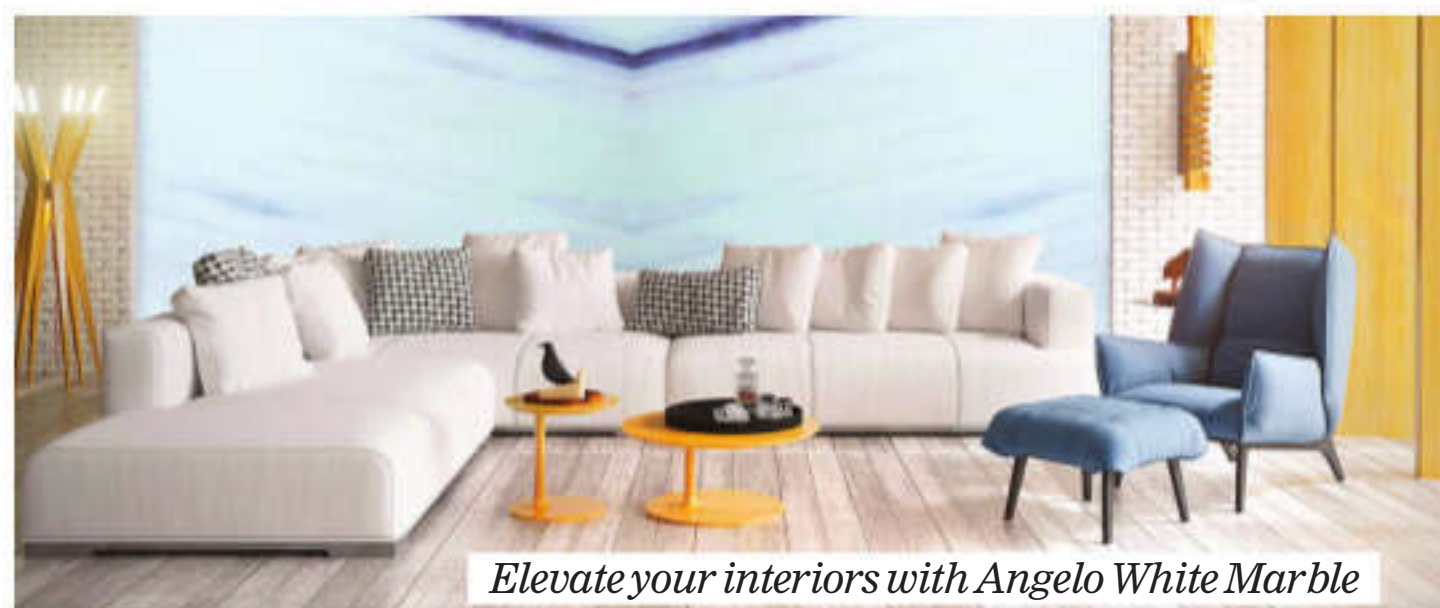

Sustainability and ethical sourcing remain core to A-Class Marble's philosophy. Every block is quarried with strict adherence to environmental standards, and advanced machinery ensures precision with minimal waste. *Angelo White* blends natural beauty, craftsmanship, and innovation. Each slab undergoes meticulous finishing—leather, hydro diamond, fluting, honed, or polished—ensuring performance, longevity, and endless design versatility. As Rai concludes, "This marble is a dialogue between Earth and design, where craftsmanship reveals what nature has already perfected," making it a cornerstone of luxury for interiors that celebrate both elegance and resilience.

Elevate your interiors with *Angelo White Marble*

intricate

Poetry pressed into porcelain

Designed to enrich daily rituals with beauty, meaning, and craft

THERE IS A particular kind of magic that happens when heritage craft meets modern sensibility, and it's precisely this quiet alchemy that Anandita Kothari saw when she first encountered *Burleigh*—the collection, she explains, is "shaped by a thoughtful blend of heritage English craftsmanship, botanical artistry, and the quiet poetry of traditional engraving techniques." The motifs are rooted in "hand-drawn florals, vintage ceramic archives, and the organic geometry of curated gardens," giving it a feeling that is both

refined, inviting and perfectly aligned with Plate & Peonie's philosophy of creating "elevated, nature-led, emotionally resonant tablescapes."

Its signature palette of washed blues, soft neutrals, muted greens, and timeless indigos mirrors the brand's warm, calming, seasonless aesthetic, forming a seamless balance between old-world elegance and modern restraint bound together by a shared devotion to craft, story,

Crockery but make it art

and everyday beauty.

However, what captivated Anandita, the founder, is *Burleigh's* rare ability to "enhance the vibrancy of Indian cuisine without competing with it," allowing it to slip gracefully into richly layered settings where Plate &

Peonie linens, candles, florals, and global accents surround it. This she says makes *Burleigh* "the graceful anchor of the table" while Maison margaux or Le ottomans add colour, personality, and depth.

The same extends into function as *Burleigh* achieves a rare harmony between everyday practicality and exquisite craftsmanship, with pieces like the Pink asiatic pheasants teapot and the Dark green 3-tier stand—hand-engraved yet durable—turning morning tea or a simple fruit arrangement into "a moment of gentle ceremony". Their patterns frame food with "character, softness, and a sense of heritage."

Each piece is crafted from premium English earthenware using *Burleigh's* time-honoured tissue-transfer printing technique and then hand-finished to ensure crisp detailing and smooth glazing.

Feel the warmth

EVERY ROOM TELLS a story, and its fragrance should reflect its mood and purpose. Guided by this belief, Seva Home presents the *Sacred Space Collection*—luxury hand-poured candles designed to make every corner feel truly meaningful. Four distinct scents shape a harmonious home: Soleil brings uplifting brightness to living spaces; Red berries adds warmth and intimacy to bedrooms; Aqua offers refreshing calm for baths; and Leather grounds studies with focus. Made with clean soy wax and a 30-hour burn time, each candle blends craft and conscience, hand-poured by women artisans.

Price starts at ₹1,895.

Artful utility

BHARAT VEDICA's A2 Gir cow ghee jar elevates a daily kitchen staple into a symbol of sophisticated design. Housed in a PVD-coated stainless steel vessel accompanied by a complementary, custom name-engraved pot, it blends traditional craft with modern precision. Its golden sheen and thoughtful detailing appeal to those who appreciate artistry and mindful living. This is luxury anchored in heritage—a piece that rises beyond functionality to embody refined living and enduring authenticity.
